## Product care

Taking care of your bag will help prolong the life of the equipment put in it. Wipe down with a damp cloth and ensure water is not stored in the reservoir for long periods of time. The colour of the outside material could fade if left in direct sunlight for prolonged periods of time.

Do not put in a washing machine or tumble dryer. Do not iron.

Our hanger system has been developed to ensure strength and hold up to 25kg in weight. Be mindful of putting more than 30kg on the hanger as this could damage the long term strength of the product.
